**"Every time you state what you want or believe, you're the first to hear it. It's a message to both you and others about what you think is possible. Don't put a ceiling on yourself."**

# DAYAN IBRAR

Hi, I am Dayan Ibrar a 16 year old self taught developer and entrepreneur. I started learning how to code at the age of 12 to 13, I developed high end programs, games with the world most biggest engines "Unity and Unreal" as well as multiple languages for game development such as C++ and C#, 3D modeling, Game Design, Level and terrain artist, Graphic designer, Full stack web app development with MERN stack, iOS development, Blockchain and Crypto currency development and smart contracts development.

## ACHIEVEMENTS:

I completed over 7+ certifications, 3 currently going on and a Microsoft and google network engineer preparation going on for exam next year in January.

I developed dozens of website and dynamic web apps.

I created some of the most famous sports posters and some of them were appreciated by "Proper Twelve Whisky", "Conor mcgregor" and "Paulo Costa" and a lot most biggest stars.

I developed my first game for android which got over 100+ downloads.

I started learning stocks and crypto trading which became a passive income for me where my money works for me.

I got hired for Elo pitch a social networking startup as a intern developer

I got hired for Stageway as a director of technology

I got hired for GLG insights as a blockchain and crypto expert

I created multiple E-Commerce businesses

I co-owned a Asian clothing brand "Somi Styles" which got community of over 100K

I have been appreciated by developers from NASA, Yahoo, Elo pitch and Domino chain.

I am building the world largest digital education organization and network that will begin a new era

Next year I will launch my multi Technology company yes just like Microsoft, which I worked for 2 years now since 2019 and in 2022 our first softwares and programs will be released

# ENTREPRENEURSHIP

"It's fine to celebrate success but it is more important to heed the lessons of failure."

Entrepreneurship is important for a number of reasons, from promoting social change to driving innovation. Entrepreneurs are frequently thought of as national assets to be cultivated, motivated, and remunerated to the greatest possible extent. In fact, some of the most developed nations such as the United States are world leaders due to their forward-thinking innovation, research, and entrepreneurial individuals.

**Be your own Boss:** Work at anytime you want, as you want, without taking orders from someone, go on vacations, take control of your life and do whenever you want.

**Financial Freedom:** You won't have to worry about expenses, luxury penthouses, mansions, cars and stuff, you can work from anywhere in the world while spending time with your family.

**Take it as far as you want:** You have the power and the freedom to run your business as effectively as you want, The only limitations you have are the ones you set for yourself. You set the tone, you establish the parameters, and you stop exactly where you decide you want to stop.

**Control over your own fate:** Your fate as a business owner is in your own hands. In other words, nobody is going to fire you. You're going to have a job, and you're going to be in business as long as you can keep the business alive. You never have to worry about someone else in authority pivoting in the wrong direction and deciding your fate for you.
